Past Performance and Customer Profile

- **Department of Defense-** Refrigeration Heroes has completed numerous projects through two separate prime contractors for NAVFAC in South Carolina. These projects have included two separate DFAC refrigeration replacements, chiller repairs and replacement, and HVAC repairs and installations. We continue to be a trusted contractor for this command.
- **Agricultural Customers-** Our company has a long history supporting large scale farms and food production facilities. We have completed multiple design/build projects and support dozens of private and public institutions with ongoing HVAC-R maintenance.
- **Industrial Customers-** Refrigeration Heroes supports many processing and manufacturing facilities with HVAC, refrigeration and process cooling services. These customers value our technical expertise and ability to offer solutions that reduce their energy usage.
- **Commercial Customers-** Our wide range of commercial customers gives us exposure to the entire breadth of commercial HVAC-R systems from grocery refrigeration to retail air conditioning.
